75 Pages	9,450	\$35.11	\$36.78	\$43.12

Advertisements that run with no changes within six (6) days of original will receive a 25% discount, except Sunday.

Preprints

Mechanical Requirements and Deadlines

Daily and Sunday preprints must be in *The Daily Sentinel* mailroom at 734 South 7th Street, Grand Junction, Colorado 81501, 7 days prior to publish date. Preprints arriving after the 7 day deadline are subject to costs for handling. To be compatible with *The Daily Sentinel* mailroom operation, pallets must not exceed 5 feet in height with a maximum weight of 2,500 lbs. Pallets with platform top and bottom constructed to withstand double stacking. Free floating inserts must be on a minimum of 70lb stock. Roto inserts must be powdered to avoid adhesion. Each pallet should include corner pieces and a board on the top; pallets must be cross-tied. Sections should be double strapped to pallet on four sides. Each pallet should carry at least two pallet tags, with a copy of the insert contained in the pallet load display next to each pallet tag. If pallets are not loaded to the current ANSI standard, the inserts they contain will be prone to damage during shipment and storage. If damage occurs, additional handling fees may be charged to advertisers to cover increased production costs.

Reduced coverage will also result due to a higher rate of waste and increased misses and multiple feeds. Insertion order to include name, address of printer, dates of shipment, waybill number and method of transportation.

Commissionable rates to recognized agencies.

FOB charges will be reversed on the following month's billing.

Mechanical Specifications for rectangular standard inserts

Maximum size: 12" long (*along the folded edge*) 10" wide

(*perpendicular to folded edge*)

Minimum size: 5" x 7" including cards, envelopes 8"x10 1/2" for quarter-folded inserts. No magazine-type section should be smaller than quarter-fold (*half tabloid*) size.

Maximum thickness: 3/8" maximum thickness. Standard broadsheet inserts printed on 30lb newsprint should be limited to 96 pages.

Minimum thickness: 70lb stock sheets/cards/envelopes. Standard broadsheet inserts printed on 30lb newsprint should be 8 pages minimum. Inserts of less than 8-pages may need to be quarter- folded for insertion. Standard tabloid-page inserts printed on 30lb stock should be a minimum of 8 pages.

Out of spec inserts

Inserts with the following characteristics may pose problems for machine insertion. Please check with your sales representative and arrange to test these inserts for production capability before placing an insertion order.

- Non-rectangular; tri-fold; or die-cut, special-shape inserts. Accordion folds cannot be accommodated.
- Inserts of inconsistent thickness (non-uniform thickness or a lump inside the insert, pre-stuffed inserts)
- Inserts that stick together and do not separate consistently
- Insert pages that are glued, stapled, stitched, perforated or perfect bound
- Objects such as keys, coins, CDs, etc., attached to any page of an insert; sachets containing scented objects; liquids or shampoos; polybags; paper bags; product samples
- Inserts for direct mail or total market coverage (TMC) must be submitted for testing and or checking postal regulations prior to acceptance for insertion.

Polybags/Newsbags from Advertisers (bags for or with product sample)

If use of polybags for daily publications is approved by the publisher, the bag size should be 6 1/2" x 21" for daily publication and 9" x 23" for Sunday publication. The thickness of the bag material must not be less than 1.5 mil. The color of the bags is critical and should be checked with the publisher. For example: avoid white bags on snow days. Bags with product samples must be checked with publishers' representatives and should be tested prior to acceptance. Polybags must be in *The Daily Sentinel* mailroom at 734 South 7th Street, Grand Junction, Colorado 81501, 7 days prior to publish date.

Required Pad

For inserts meeting the above guidelines, and a draw order of less than 25,000 copies to be inserted, the pad should be a minimum of 500 copies to cover machine setup, waste and damages. For draw orders of 25,000 or more, the pad should be a minimum of 2% of the draw order.

Flyer	4-15 Pages	18-28 Pages	30-36 Pages	38-42 Pages
\$77.00	\$82.50	\$86.50	\$89.50	\$92.50

Costs shown represent dollars per 1000 copies.

	Frequency Rates
* 44 pages and above, add \$2 per side per thousand	12 per year 15%
